

The Happy Hoppers are excited to return to Square Dancing. The health and well-being of our members and guests is very important to us. Following Washington State Guidelines, the Stilly Valley Center and the Happy Hoppers are requiring masks be worn while indoors at our dances, regardless of vaccination status.

Food and beverages will no longer be provided at our dances. For now, we request that you bring a personal water bottle to limit transmission of any microscopic organisms that may be lurking about. We look forward to once again enjoying Jean's pies, Marlys's lemon bars, Chris's creations, and all the other goodies you have missed. For now, let's be glad we can enjoy dancing and each other's company again.
